## Summer 2022 **Health Plan**

---

Many of you have been waiting and wondering about what the COVID-19 requirements around vaccination, masking and other requirements will be this summer. In March the Ontario government lifted all COVID-19 regulations for overnight kids camps. We will continue to do our best to ensure Kids Camp is a safe and fun experience for everyone.

- Camper activities have been arranged to reduce the number of close contacts
- Good hand hygiene will be taught, practiced and encouraged
- There will be additional healthcare support to assist with extra needs

### Things you need to know:

- **At this time masks and COVID-19 vaccines will not be a requirement for participation in Kids Camp.**
- We will follow the current school guidelines for screening and need for self isolation. [SCHOOL SCREENING](#)
- Should your child return home because they tested positive for COVID-19 at Kahquah, a refund will be issued for the days your child misses.
- Full cancellations are available until May 15th. After May 15th our standard cancellation fees will apply. [KIDS CAMP REGISTRATION POLICY](#)
- All busing requests become final as of May 15th, after which busing fees become non-refundable.
- Campers can now register for multiple weeks, however the 'stay over' option from Saturday to Sunday is not available.
